- Pollution reducing paints for a healthier environment
- Breathable coatings
- Environmentally friendly and sustainable materials

21.06.2017 / 8

### HISTORY OF MINERAL PAINTS

Minerals used in paints, as far back as cave paintings

15,000 B.C.

1878

A.W. Keim uses waterglass to create mineral paints

1st Generation – Keim Pulverisat Liquid & Powder Components

1768

Goethe, discovered waterglass

1895

Anna Lea Merritt, Church in Blackheath (first UK example)

21.06.2017 / 22

### BENEFITS OF MINERAL PAINTS: DURABILITY

- Chemically bonded to substrate
- UV light and weathering resistant

Stein Am Rhein Town Hall  
Decorated over 130 years ago

Blair Castle Scotland  
Decorated 1988

Mineral Paints are the solution to many problems associated with forming acrylic coatings in addition to being highly decorative. Mineral Paints give specifiers confidence in the longevity of decoration and can be used in restoration, conservation, new build and re-decoration projects.

# KEIM MINERAL PAINTS PRODUCT SEMINAR

This presentation is ideal for anyone interested in learning about the KEIM Mineral Paints range and focuses on the benefits and what can be achieved using a KEIM mineral coating.

## PRESENTATION on KEIM MINERAL SILICATE PAINTS

### 'KEIM Mineral Paints Product Presentation'

- Systems and solutions for all mineral based substrates
- Environmentally friendly paints
- Internal and external systems
- Concrete protection and repair
- Water repellent treatments
- Pollution reducing paints for a healthier environment
